

ACMS

ADVENTIST CHURCH MANAGEMENT SYSTEM

GET REGISTERED
be a Member not just a Number

Is your name in the Adventist Church Management System (ACMS)?

The Southern Africa-Indian Ocean Division (SID) is implementing a computerized church membership system in conjunction with the General Conference.

The system provides a departure from number based statistics to member based statistics.

**Church clerks get trained
in how to use the ACMS.**

You need to do the following:

- See the Church Clerk
- Check if your name is in the record books
- Get an ACMS form from your Church Clerk
- Fill in the ACMS form
- Return the ACMS form to the Church Clerk for the uploading of your information onto the ACMS

For more information visit:

SOUTHERN AFRICA-INDIAN OCEAN DIVISION (SID) ADVENTIST CHURCH MANAGEMENT SYSTEM

in conjunction with the General Conference.

MISSION STATEMENT

The mission of the Adventist Membership Systems department is to develop, implement, and support an effective Adventist church management software system that empowers local churches and enhances membership ministries.

VISION

Is to enable local churches to serve members more efficiently and help leaders plan more strategically.

MAIN GOAL

That all names be fully uploaded and that the official register of our Division be declared to be the ACMS Register by Sabbath December 31, 2022
(to replace all data bases or hard copy registers).

WHEN FULLY OPERATIONAL THE ACMS WILL:

1. Keep our membership registers.
2. Help Transfer of names to be easier and more accurate online.
3. Help capture interests and visitors for the interest coordinator.
4. Help record absent/ Missing members.
5. Give statistics for planning for church leaders.
6. Generate all local church, conference, union, division, General Conference departmental reports.
7. Generate tithe and offering receipts for local churches and make it easier for the Conference, Union, Division and the General Conference to Collect, account and audit denominational finances.
8. Be able to generate maps as it captures GPS coordinates.
9. Help members interact with the church clerk and their pastor using a Membership Application (called 7me) already in operation.
- 10.Etc.

For this system to succeed there is need for each of the following to collaborate and play their part faithfully:

The church member	The elders
The local church clerk	The pastor
The local church board	The conference
The local church business meeting	The Union and the Division
